

## **UPDATE: 4 June 2020**

Dear Friends United in Love of Christ and His Church:

Thank you for steadfastly seeking Christ in this calamitous time and inspiring others to do the same.

Your prayerful support of me and one another and the generous offering of time and finances of those among us able to do so, powerfully make possible the advance of God's Kingdom right where we are. Your thoughtful and kind self-offerings make real the heartfelt cry of Therese, the Little Flower, to "do little things with great love."

Thanks, too, for the remarkable patience that you have displayed with our changes in worship. We continue to seek your suggestions toward maintaining reverence in worship and safety for everyone – especially the most vulnerable among us.

## **SANITIZING HANDS**

- We will continue to provide hand-sanitizer for everyone to use before entering into the church.
- When the hand-sanitizer is applied liberally to hands, no virus remains thereby alleviating all fears from depressing the lever to dispense the sanitizer.
- Because hand-sanitizer is used when you enter and the church already is sanitized, we longer will encourage people to use hand-sanitizer again before receiving Holy Communion, although you may choose to do so and it will be available for anyone wanting to use it a second time.

## **ENTRY / EXIT**

- Medical experts and business leaders assure me that we can begin using the narthex as the main entry and exit.
- Please remember to practice 6' physical distancing from people not living under the same roof.
- Please avoid congregating in the church and narthex, instead interacting freely with each other outside the church or in the courtyard.

## **REQUEST FOR VOLUNTEERS**

- If you are able and willing to help with weekend Mass parking, greeting, check-in or seating, please call the office.

A reminder that livestream continues everyday for Mass (except Friday) along with the daily Rosary (6:30pm). We also will continue to livestream Funeral Masses.

In Jesus Through Mary,  
Father Dave
